

July 29, 1967

Dear Hal,,

I'm rushing to get you these items in the mail so you can have them by Monday. I'm enclosing the "Councilor" issue of 12/5/63 which you requested and a reply from Hearst Metronome concerning a film mentioned in Schiller's Scavenger book (see page 130). Notice that the Librarian refers to footage "prior" to and "after the attack" when in Schiller's book the sound of the shots were heard but then dubbed in according to the unnamed Vice-president of Metrotone. This appears to be an outright evasion to admit they had footage during the actual firing, don't you think? Perhaps you can follow up on this in some way and see if you can find out anything further. As Stan pointed out to me in his original letter he did not indicate that he was interested in purchasing the film and it would appear that they are defensive about this point.

In your letter you mentioned that LHO worked at Reilly next to an "SS garage". I presume you were referring to the Crescent City garage and this is a typographical error. Undoubtedly you are familiar with the testimony of Adrian T. Alba (Vol.10, p.219-229) on this.

In the States-Item of 7-15-67 an article listed the death of a Miss Jean C. Haydel, a former librarian at Carver Junior High School. She was 35 and lived at 1137 Harrison Ave., N.O. Survivors are listed that include other Haydels.

Who is the ~~name~~ Logan you referred to in your letter- I've no information on him?

More to follow shortly, but want to get this in the mail.

Best,

Hal
